

CAPABILITIES STATEMENT

GREEN
CURRENT
SOLUTIONS

**Curbing the global
ocean plastic problem
- one pallet at a time!**

DESCRIPTION OF COMPANY

Green Current Solutions (GCS) is a sustainability-obsessed plastic injection molding company, producing the world's most socially-conscious pallet made of 100% recycled HDPE, including Ocean Bound Plastics collected at **Living Lands & Waters' river cleanups**.

CORE CAPABILITIES

- Manufacturing heavy-duty, reusable pallets
- Ability to manufacture other large plastic containers, crates, trays, and lids
- Building "Business Cases for Change" for the transition from wood to plastic pallets
- Ability to calculate Scope 3 GHG reductions and other sustainability indicators

DIFFERENTIATORS

- ✓ The foundation of our business is promoting sustainability and protecting the environment.
- ✓ GCS pallets help reduce the amount of plastics entering our rivers and oceans, landfills and incinerators.
- ✓ GCS customers, dependent on location, can work with Living Lands & Waters at a community-based river cleanup to help collect materials that could be used in their pallets!
- ✓ GCS is a major donor of Living Lands & Waters - An internationally recognized non-profit organization dedicated to cleaning up America's rivers

CERTIFICATIONS

Green Current Solutions is a **WBENC** and **SBA Certified Women-Owned and Managed Small Business** that partners with Chad Pregracke—2013 CNN Hero of the Year and Founder of Living Lands & Waters.
