

GREEN
CURRENT
SOLUTIONS

Curbing the global ocean plastic problem - *one pallet at a time!*

Green Current Solutions (GCS) creates custom, injection molded pallets using 100% recycled HDPE (high density polyethylene), using a portion of Ocean Bound Plastics collected at *Living Lands & Waters' river cleanups.*

WHAT SETS US APART FROM OTHER PLASTIC PALLET MANUFACTURERS?

- ✓ The foundation of our business is promoting sustainability and protecting the environment.
- ✓ GCS pallets help reduce the amount of plastics entering our rivers and oceans, landfills and incinerators.
- ✓ GCS customers, dependent on location, can work with Living Lands & Waters at a community-based river cleanup to help collect materials that could be used in their pallets!
- ✓ GCS is a major donor of Living Lands & Waters - helping to support their mission to clean America's Rivers.

SOCIAL RESPONSIBILITY

- ✓ We offer competitive wages and benefits and actively recruit refugees, immigrants and others with barriers to employment.
- ✓ Our facility is located in a "highly distressed" census tract to help boost the local economy.

Green Current Solutions is a **Certified Women-Owned and Managed Business** that partners with Chad Pregracke—2013 CNN Hero of the Year and Founder of Living Lands & Waters.

An internationally recognized non-profit organization dedicated to cleaning up America's rivers

SUSTAINABILITY

- ✓ 100,000 plastic pallets save 12,500 trees—allowing these trees to sequester 600,000 pounds of carbon per year
- ✓ 43% of all hardwood trees are cut down for single use pallets
- ✓ Buying pallets made from 100% recycled HDPE versus those made with virgin resin will save 88% in energy costs and 71% in greenhouse gas emissions

We will buy back and recycle used pallets!

Why are plastic pallets better than wood?

Why are plastic pallets better than wood?	WOOD	PLASTIC
LIFESPAN	3 - 5 cycles	60 - 120 cycles
CUSTOMIZATION & TECHNOLOGY	Limited	Unlimited
POTENTIAL FOR PRODUCT DAMAGE AND EMPLOYEE INJURY	High	Low
WEATHER & CHEMICAL RESISTANT	-	✓
EASILY SANITIZED	-	✓
UNIFORM SIZE	-	✓
DISPOSAL COST	✓	-

GCS products, price and customer service will meet or exceed the quality of your existing pallet vendor.

We can also create other plastic containers, crates, trays, lids, etc.

OUR FACILITY

Our 100,000 sq ft. manufacturing facility and warehouse sits on 16 acres and is centrally located in East Moline, IL.
